

Presents

How is your business working?

Where is your business heading in 2018?

It is time to Book Your Business Audit Now and take your business to the next level!

Alina Dan is a renowned national and international early childhood consultant and developer. Alina has helped thousands of early childhood services excel across all areas of operations – NQF, financial viability, business growth, marketing/market niche concept & market positioning, team building/culture, team profiling, service operations analysis as well as being involved in full development of early childhood services. As a prominent expert consultant in the field with a wide range of roles across the industry Alina is one of the few advisors in Australia that understands all 3 (very different) worlds of compliance, operations and development.

The 7 most avoided Business Critical Reflective Questions!

1. How strong are your systems and strategic planning? Do you have a strategic plan in place?
2. Does your market respond to you and your approach?
3. Are you surviving and reacting or are you being a great pro-active business operator?
4. Are you actively optimising your business viability and income? How?
5. What is your team culture like? Is it building your reputation or sabotaging itself?
6. What sets you apart from the rest?
7. How great does your early childhood service perform overall?

Your Business Audit looks at all your systems in place:

1. Your operational systems; compliance systems (WHS, NQF & EYLF).
2. Your Management Systems; team culture/challenges, management style/approach, leadership tools.
3. Development systems; business goals, strategic planning, accountability, viability, business growth, marketing strategies, market positioning, business diversification.

To book your audit contact our events manager Lisa Dooley at events@alinadanconsultancy.com or **0404 487 017**.

Please note the business audit will require the approved provider and/or service manager/director to be available during the audit. The audit includes 3 parts: site inspection/visit, centre director interview and data analysis.

Your Business Audit report will include 3 sections:

- a. Operations Findings & Recommendations
- b. Management Findings & Recommendations
- c. Development Findings & Recommendations

The Business Audit is aimed at both; for profit and not for profit services. Without a sound and strong business plan in place any early childhood service will struggle and operate reactively to the demands and changes within the market.
